

Rock products 1995 Annual Index

Aggregate

Aggregate projects 1995, April	31
Approach old stockpiles with caution, Nov.	86
Association leader sets new course, Oct.	34
Buyer's guide 1996, Nov.	29
Buying crushing plants in Europe's volatile market, Oct.	39
How to classify feasibility studies, April	25
Knocking down dust, May	19
Prospecting for natural aggregates: an update, part 4, Jan.	31
Screens: pick the right tool for the job, Dec.	27
Screens: surveying the science of separation, Nov.	24
Selecting sites for remineralization—a geographic information systems approach, Oct.	36
Surviving encroaching development: creating social compatibility, part 2, Jan.	26
We test Cat's 5080 front shovel, May	24
What do opponents of aggregate operations really think?, Feb.	39
What you should know about mitigation banking, Mar.	34
What you should know about wetlands, Feb.	30
Who owns whom?, Sept.	44
Aggregate projects 1995, April	31
Association leader sets new course, Oct.	34
Aston, R. Lee	
Approach old stockpiles with caution, Nov.	86
Automation	
Computer maintenance provides benefits from bytes, Sept.	26
Managing fines with automation, Sept.	31
Plan carefully to make automation pay off, Sept.	25
"Recipe" plant cooks up high-quality spec sand, Sept.	36
Technology meets customer service, Sept.	40
Brealey, P.I.	
Buying crushing plants in Europe's volatile market, Oct.	39
Buyer's guide (aggregate) 1996, Nov.	29
Block, Gene	
Surviving encroaching development: creating social compatibility, part 2, Jan.	26
Buying crushing plants in Europe's volatile market, Oct.	39
Carroll, Kelly	
Top 20 sand & gravel plants, Aug.	28
Carter, Russell A.	
Computer maintenance provides benefits from bytes, Sept.	26
Knocking down dust, May	19
Managing fines with automation, Sept.	31
"Recipe" plant cooks up high-quality spec sand, Sept.	36
Screens: pick the right tool for the job, Dec.	27
Screens: surveying the science of separation, Nov.	24
Special report: clarifiers can settle wash water problems, June	40
Commercial stone focuses on manufactured sand, Mar.	37
Computer maintenance provides benefits from bytes, Sept.	26

Crushed Stone

Commercial stone focuses on manufactured sand, Mar.	37
Glory hole project at federal quarry, Aug.	40
Louisville crusher, Mar.	40
Master tinkering, June	47
Recycle and reclaim, Mar.	44
Small plant fills a tall order, Aug.	30
Top 20 crushed stone plants, Aug.	25
Total automation, July	30
Underground mine map, Aug.	36
Dergantz, Donald	
Glory hole project at federal quarry, Aug.	40
Dietrich, Dr. Norman	
What do opponents of aggregate operations really think, Feb.	39
Drake, Bob	
Actions speak louder than words, July	13
Association leader sets new course, Oct.	34
Courting common sense, June	21
Experience spurs portable plant design, Aug.	33
Finding answers to the fines problem, Sept.	15
Forecast of Industry Consolidation Offer Warnings for Survival, Dec.	15
The power of training, Oct.	15
Taggant regulations are a quick, ineffective response to terrorism, Aug.	15
Taking a fresh look at costs, Nov.	15
Technology meets customer service, Sept.	40
Editorial Comment	
Forecast of Industry Consolidation Offers Warnings for Survival, Dec.	15
Au revoir, April	17
Bon voyage, May	13
Courting common sense, June	21
Finding answers to the fines problem, Sept.	15
Highlights of 1994, Jan.	15
The power of training, Oct.	15
Quotable quotes, Feb.	15
Repackaged aggregate can help your garden grow, Mar.	17
Taggant regulations are a quick, ineffective response to terrorism, Aug.	15
Taking a fresh look at costs, Nov.	15
Experience spurs portable plant design, Aug.	33
Forecast 95	
Gypsum: producers optimistic about 1995, Feb.	35
Lightweight aggregate: good business to continue in Middle America; coasts to remain weak in '95, Feb.	34
Lime: production to climb 3% in 1995, Feb.	36
Forecast 96	
Aggregate: production pace slows after a record year, Dec.	32
Aggregate forecast map, Dec.	34
Construction: thanks to housing market, activity in 1996 to grow 4%, Dec.	31
Lightweight aggregate: 2% to 4% growth, intense marketing expected in 1996, Dec.	43
Glory hole project at federal quarry, Aug.	40
Goldberg, James	
Glory hole project at federal quarry, Aug.	40
Gypsum	
Producers optimistic about 1995; report record production in 1994, Feb.	35

Hart, Michael J.

What you should know about mitigation banking, Mar.	34
What you should know about wetlands, Feb.	30
Hints & Helps	
On-board scale systems may save time and money, April	19
Tips for tracking conveyor belts, Feb.	25
Using sensors in the automated aggregate plant, Mar.	25
How to classify feasibility studies, April	25
Huhta, Richard S.	
Aurevoir, April	17
Highlights of 1994, Jan.	15
Quotable quotes, Feb.	15
Repackaged aggregate can help your garden grow, Mar.	17
Huisman, Ted	
What do opponents of aggregate operations really think, Feb.	39
Ideas/Trends	
Composting can be a profitable idea, June	22
Predictive maintenance: counting large particles in fluids, Nov.	122
Supercomputers create a virtual wheel loader, Dec.	70
Use team approach to optimize drilling and blasting, July	17
Working with educators to train future employees, Aug.	82
Industry News	
1994 may be one of the stone industry's deadliest years, Feb.	27
Asian countries gobble up portable crushers, Mar.	27
Disaster debris processing highlights recycling seminar, May	15
Hillhead '95 scheduled for June 20-22, Jan.	19
Industry fatality figures see highs and lows in 1994, June	27
June construction contracting jumps 4%, Sept.	22
Markets, cost savings created using by-product fines, April	21
Operations recognized for safety records, Oct.	21
Uncertain future for Chicago aggregate industry, Aug.	21
Update: Vulcan/ICA backhauling to Mexico, July	18
USBM announces top ten lime plants for 1994, Nov.	20
Vincent P. Ahearn Jr., former NAA/NRMCA president, dies, Dec.	21
It's not easy being green, May	30
Keeping Florida supplied, June	30
Knocking down dust, May	19
Kramer, Deborah A.	
Selecting sites for remineralization—a geographic information systems approach, Oct.	36
Lightweight aggregate	
2% to 4% growth, intense marketing expected in 1996, Dec.	43
Good business to continue in Middle America; coasts to remain weak in '95, Feb.	34
Lime	
Production to climb 3% in 1995, Feb.	36
Louisville crusher, Mar.	40

HOW SOMETHING BOTTOMLESS CAN IMPROVE YOUR BOTTOM LINE.

A **CRESCENT**® bottomless scraper beats a dragline bucket in nearly every category of productivity. It can reach further, to 1000 feet and beyond. It works deep, over 100 feet down. Its combined barrel and bevel shape gathers and moves more material than a comparable dragline. A **CRESCENT** scraper is even easier on your equipment. You dig more, move more and make more. Call or write for details.

We buy, sell and trade Crescent® buckets.

SAUERMAN®
A Unit of AmClyde Engineered Products, Inc.

Crescent®
